Dr. Thomas D. Terry
President
The University of Santa Clara
Santa Clara, California

Dear Dr. Terry:

Thank you for your kind letter of April 8, and for your words of tribute to my late husband. I also appreciate your expression of sympathy for me and the children.

It is good to know that the Board of Regents of your University has increased the amount of financial aid available to students from minority groups.

Many colleges and universities across the country responded to the sense of shock at the death of my husband by taking action such as yours at Santa Clara. Let us hope that the feeling of dedication continues, for there are many unfinished tasks for each of us in the struggle for justice, brotherhood, and peace.

I am sorry that my reply has been so long delayed, and again my thanks for your thoughtful letter. Best wishes for the New Year.

Sincerely yours,

Martin Luther King
