

The Focus is on Women in the Center's Library

A SHORT BUT HOPEFUL HISTORY

In 1961 women students were admitted to the University of Santa Clara for the first time. Since then our numbers have grown to nearly 51 percent of the total student population. The Women's Center first opened its doors in 1981. Since that time, through the efforts of its director, staff, advisory board, and dedicated volunteers, both men and women, it has worked to identify and address all issues affecting women in this university community. Now we look forward confidently to a new society, shaped in equal ways and rewarded in equal measure, by both men and women. If you share this hope and this vision, we invite your help.

WE'RE HERE TO HELP YOU ...

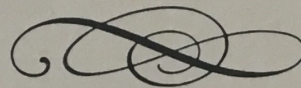

... organize programs involving personal, medical, or educational issues related to women

... bring leading professional women to our campus

... provide a circulating library and referral services for all students

... facilitate the formation of women's support and discussion groups

... facilitate direct personal contact between students and professional women

WE HAVE A PURPOSE!

The Women's Center provides support, information, and programs to promote the personal, educational, and professional interests of women at the University of Santa Clara. By encouraging the women of this community in the pursuit of their individual and collective goals, the Center reflects its central mandate and a commitment — to challenge any aspect of society diminishing the individual's ability to achieve full potential.
